HARNESSING AI TO SUPPORT CHILDREN'S MENTAL HEALTH IN SCHOOLS

Target Audience

School leaders, teachers, middle leaders, pastoral teams, and educational staff responsible for student wellbeing, safeguarding, and pastoral care. This session is particularly relevant for those working with KS2 and KS3 students.

MONDAY 17 NOVEMBER 2025

4.30PM TO 6.00PM

Overview

Artificial Intelligence (AI) is increasingly being used in education, not just to support learning but also to help safeguard student wellbeing. With rising concerns around children's mental health, school staff are seeking new ways to identify, monitor, and support students effectively while managing their own workload.

This webinar will explore how AI can be a powerful tool in enhancing mental health support for children and young people. It will provide educators with practical strategies to integrate AI-driven solutions that assist in early intervention, wellbeing monitoring, and workload reduction—ensuring that technology complements, rather than replaces, human connection and care.

Key questions Addressed

- How can AI help identify early signs of mental health concerns in students?
- What AI-powered tools can assist schools in monitoring wellbeing and offering timely support?
- How can AI reduce administrative workload to allow staff to focus on student welfare?
- What ethical considerations should schools be aware of when using AI for mental health support?

Key Takeaways

Participants will gain:

- Insights into AI's role in mental health support: How AI-powered analytics, wellbeing tracking apps, and chatbots can support early identification and intervention.
- Practical applications for schools: AI tools that can help monitor emotional wellbeing, detect patterns in student behaviour, and provide resources for intervention
- Reducing staff workload: How AI can streamline pastoral care tasks, such as automated reporting, wellbeing surveys, and behaviour pattern analysis.
- Ethical considerations and safeguarding: Best practices for ensuring AI is used responsibly, maintaining data privacy, and preserving human-led pastoral care

Webinar Outline

This interactive session will include real-life case studies, live demonstrations, and practical strategies that educators can implement immediately.

- Understanding AI in Pastoral Care: What AI is, how it's being used in safeguarding and mental health monitoring.
- AI for Early Intervention: How AI can identify patterns in behaviour, attendance, and engagement that may indicate mental health concerns.
- Reducing Staff Burden: How AI can assist in administrative tasks, freeing up time for meaningful student interactions.
- Challenges and Ethical Considerations: Data privacy, biases in AI, and ensuring AI enhances rather than replaces human support.
- Implementing AI in Schools: Low-cost, high-impact AI solutions that can be introduced today.

Practical Applications:

- Assessing Readiness: Where to start with AI in pastoral care and mental health support.
- AI-Powered Wellbeing Tools: Exploring platforms that monitor student mood and provide staff with early warning indicators.
- Using AI to Support Staff Wellbeing: How AI-driven automation can reduce administrative workload, improving staff mental health and capacity for student support.
- Developing AI Policies: How to implement AI ethically, ensuring data privacy and safeguarding concerns are addressed.

By the end of this session, participants will have a clear roadmap on how to use AI effectively to support student mental health, ensuring that technology becomes an ally in wellbeing rather than a barrier to human connection.

Details

The webinar will be hosted online using Zoom.
Attendees will be provided with all relevant materials, including a PDF of the PowerPoint presentation.

Speaker: Adam Gillett

Adam is a dedicated advocate for improving staff wellbeing and mental health in schools. With over a decade of experience as an educator, leader, and consultant, Adam has been instrumental in helping schools develop cultures of empathy and support. As a Vice Principal in a large secondary and with a Master's degree in School Leadership in Mental Health, Adam's approach blends academic insights with real-world application. His work with the Department for Education (DFE) and as a recognised Inspirational Teacher Award winner demonstrates his deep commitment to fostering environments where both staff and students can thrive.

Adam has delivered numerous training sessions and webinars aimed at empowering school leaders to prioritise staff wellbeing and enhance their school culture. His practical, evidence-based approach ensures participants leave with actionable strategies to make meaningful change.

Cost Per Delegate

SATIPS MEMBER SCHOOLS EARLY BOOKING (PRIOR TO 1 NOVEMBER 2025)	£45
(MEMBER SCHOOLS WHO BOOK 3 OR MORE DELEGATES PRIOR TO 1 NOVEMBER 2025 WILL BE CHARGED £35.00 PER DELEGATE)	
SATIPS MEMBER SCHOOLS (FOR BOOKINGS BETWEEN 1 NOVEMBER AND 12 NOVEMBER 2025	£55
NON- MEMBER SCHOOLS	£75
