- Do you understand the ISSR's & NMRs and how they apply to your school ?
- Do you feel confident in supporting and challenging the school's senior leadership team?
- Are you able to hold the Head Teacher to account for securing the best possible outcomes for pupils' wellbeing?

## INSET Outline

### Independent Schools ISSR Compliance

In their documentation, ISI tell us that, 'inspections are designed to make clear the extent to which the school meets or does not meet the various ISSRs the NMS for boarding schools, the EYFS statutory requirements, and other legislation as applicable.' There are almost 30 key areas involved in a standard inspection and in many cases each of these is subject to a range of specific regulations. If your school has an EYFS provision or has boarding, there will be many more! How do Governors know where to start?

### Common Compliance Pitfalls

In this introductory webinar will offer an overview of the key aspects your school Governing body need to be aware of and some of the common pitfalls to help you audit your provision and hold school leaders to account. We cannot go through every standard and regulation but by the end of this course, you will have all the information you need to know where to look next to complete a self-analysis of your readiness for a compliance inspection.

### ISSR, NMS and EYFS

We will guide you through the Independent Schools Standards Regulations (ISSRs). We include reference to the National Minimum Standards for Boarding (NMS) and the Statutory Framework for the Early Years Foundation (EYFS) (though not the OFSTED framework for inspecting registered settings for children under two years of age). This will include an exploration of academic and pastoral policy areas plus safeguarding, health and safety and how you interact with stakeholders, to show the effectiveness of governance, leadership and management.

Join us for this twilight webinar where Bill will ensure that you are prepared for the forthcoming changes in time for your school's next inspection.
